

# CLASSIC AND ADVANCED HAIRCUTTING TECHNIQUES

## Course Overview

In this one-week course, students will receive a comprehensive introduction to classic and advanced haircutting techniques. The course covers fundamental concepts such as professional ethics and etiquettes, hair types, tools, and terminology, along with client communication and consultation and basic principles of haircutting. Students will then progress to mastering classic techniques like precision cutting, shaping, and texturizing. The course further explores advanced layering, creative cutting techniques and men's haircutting styles. Specialized techniques for different hair types and customization are also taught. The course concludes with a recap, hands-on practice, and a focus on finalizing the acquired skills. While the condensed duration limits in-depth mastery, students will gain a solid foundation and practical experience in classic and advanced haircutting techniques.

## Learning Focus
